IGNITING GLOBAL GROWTH WITH DATA-DRIVEN MARKETING

puscas.forbusiness@gmail.com

INTRODUCTION

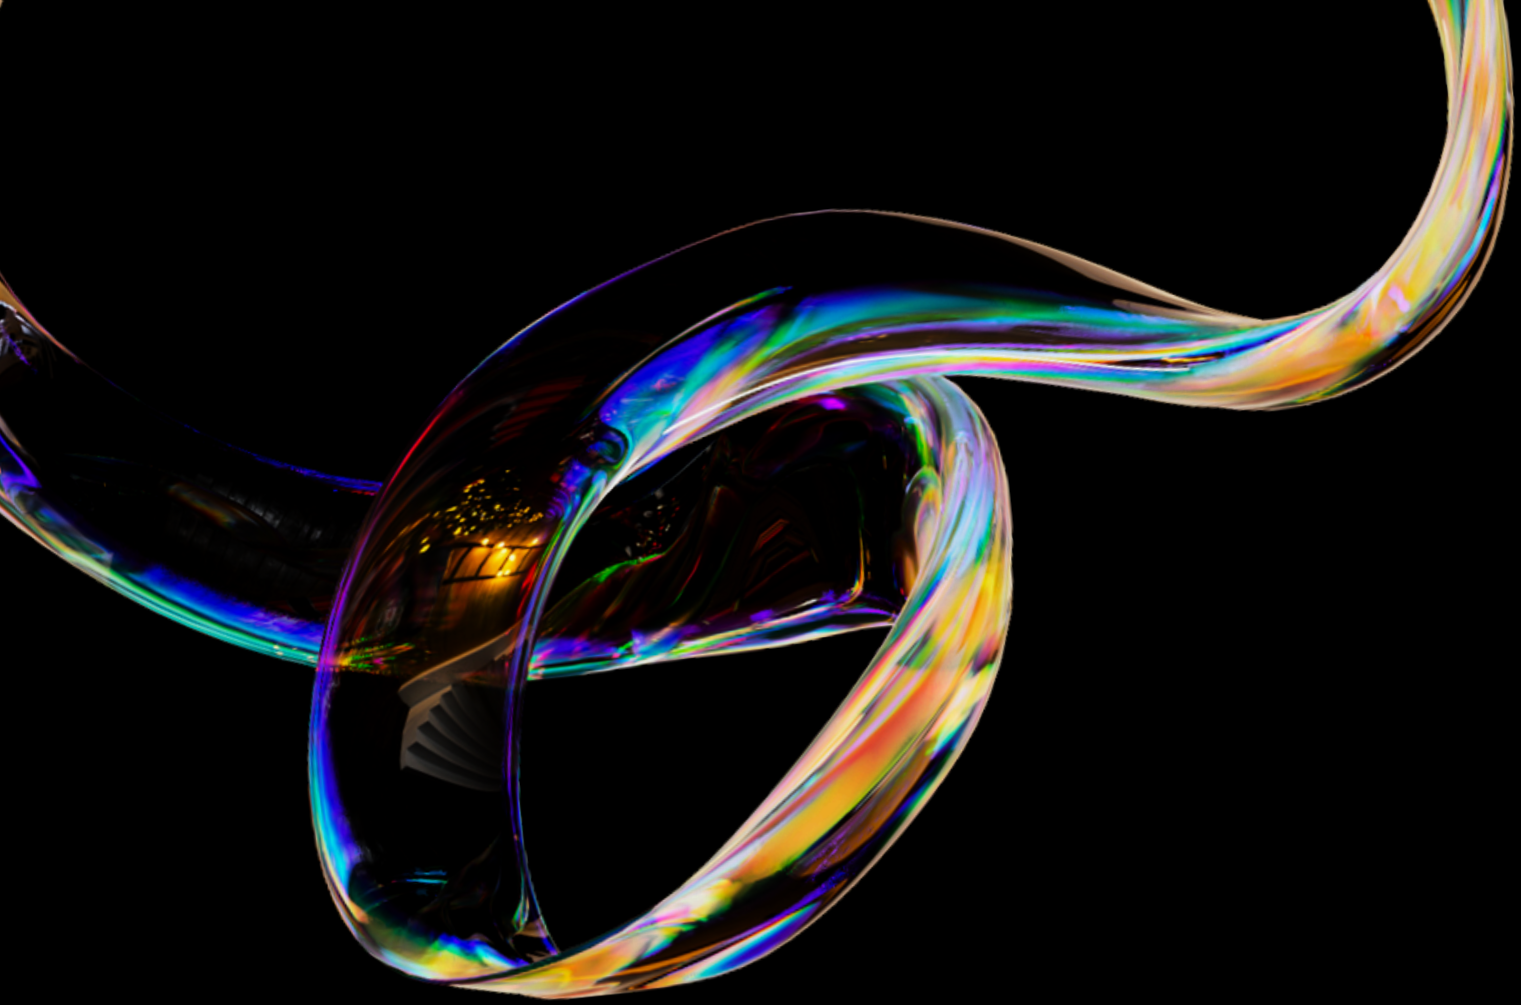

We are a performance-driven marketing agency built by former Google and Meta specialists.

Our team brings together years of hands-on experience working inside the world's most powerful advertising platforms — helping brands grow through data, creativity, and precision.

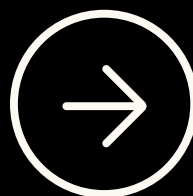

Our mission is simple: to turn clicks into meaningful growth.

Whether it's building awareness, driving conversions, or scaling internationally, we combine strategic insight with real platform know-how to help our clients win in the digital space.

PROBLEM STATEMENT

Limited reach to high-value new customers

Despite oOumm's exceptional craftsmanship, luxury materials and bespoke design identity, the absence of a paid advertising strategy means you're not effectively tapping into the global wealthy/aesthetic-driven audience who would appreciate and invest in your high-ticket pieces. As a result, growth is constrained to organic channels and repeat buyers, limiting the brand's international expansion potential.

High-end positioning with low visibility & conversion clarity

With products priced in the luxury segment and highly tailored in nature, oOumm needs not just awareness but targeted visibility among the right prospects (design-savvy collectors, affluent homeowners, luxury interior projects). Because paid advertising hasn't yet been deployed, there's little framework in place to identify, reach, and convert these niche prospects — meaning many potential clients are simply unaware or unengaged.

OUR SOLUTIONS

Launch a Targeted PPC Strategy on Meta & Google

Activate precise, data-driven campaigns focused on high-intent and luxury-interest audiences. This ensures oOumm's products appear where affluent consumers are already searching or browsing for premium home and design brands.

Build a Full-Funnel Paid Media Approach

Combine awareness, consideration, and conversion campaigns to guide potential clients from first discovery to purchase. Use Meta for visual storytelling and brand desirability, and Google for high-intent search traffic ready to buy.

Expand Into New Markets with Geo-Targeted Campaigns

Use platform data to identify and target high-value regions and cities where luxury demand is strong. Geo-targeted PPC campaigns help oOumm reach new international clients efficiently, focusing budget only where conversion potential is highest.
